

# ARIZONA ROCK PRODUCTS ASSOCIATION 2010 MODIFIED DUES STRUCTURE

*\*Modified August, 19, 2009*

\*The Board of Directors of the Arizona Rock Products Association approved an Association assessments change for the second half of 2009 and the year 2010. The change was made for several economic reasons. ARPA staff and Executive Committee proposed a tiered system in which members pay roughly the same proportion of dues that they presently pay, but temporarily decreasing the dues associated with each category. For 2010, dues will stay constant with the newly adopted flat rate. At the end of 2010 ARPA will update if necessary member dues based on production number changes and based on the 2011 ARPA budget. The ARPA Executive Committee will then review and propose adjusted dues along with the ARPA budget for approval by the Board of Directors.
