

Mount Lemmon Fire Truck Relief Fund

The Southern Chapter of the Arizona Rock Product Association raised \$7000.00 dollars to assist the Mount Lemmon Fire Department in their purchase of a new fire truck. The previous truck was lost in the devastation that claimed many homes and businesses. The check was presented at noon to the fire department and Channel 9, KGUN, at P.F. Chang's on River Road just west of Campbell in Tucson. The truck was on site for ARPA members to have a closer look. Listed below are the companies that gave to this worthwhile project.

ARPA would like to extend a huge thank you for being exemplary members and representatives of our organization. Special thanks goes to Mike Smith of Tucson Ready Mix for all of his organization on behalf of Southern ARPA. Even though you do not do these things for the recognition, the work you do does not go unnoticed by your community. This event was certainly no exception. We appreciate your time and professionalism. Thanks for all you do to strengthen our association and give back to your communities.
