ARIZONA ROCK PRODUCTS ASSOCIATION

ARPA is a trade organization that for 60 years has represented companies producing nearly all the aggregate materials in the State of Arizona. ARPA is the oldest Mining Association in Arizona and our membership includes producers or suppliers of aggregate, asphaltic concrete, ready mix concrete, asphalt and portland cement, as well as trucking firms, paving contractors and other aggregate end users, material testing labs and ancillary companies.

MISSION
The Arizona Rock Products Association promotes and preserves the sustainability of the rock products industry through active involvement in the community, regulatory, and political processes.
A Message from the Chairman and Executive Director

It has been a great year for our aggregate, concrete and asphalt companies. The economy has finally turned and many are enjoying an increase in business and profits. Arizona is the number two mining state in the nation. Our member companies provide vital construction materials that improve the quality of life for people all over this great State. We have great employees and provide them with good jobs and benefits. Our Associate Members have also seen their businesses grow.

This year we have seen notable change in the regulatory, policy and community relations arena. Our committee chairs and members spend countless hours, bringing their individual talent and knowledge, to benefit the areas in which they serve. Much goes on behind the scenes and we need all our members to stay engaged as there is much work left to do.

We will still have ongoing challenges. Ronald Reagan was right when he said, “The nine most terrifying words in the English language are, ‘I’m from the government and I’m here to help.’” The challenges from the regulatory agencies will continue. ARPA will always be a knowledgeable voice in the room and help shape policy.

We have all felt the difficulty in finding new employees. The workforce is getting older. We will have to continue to educate the public on the misconceptions of our industry. There is much work left to do. I know it will get done because I am confident in the great members of our Association. Thank you for a great year. It has been a great honor and pleasure.

Ever time I visit our state capitol building I am reminded that Arizona is blessed to have the resources it enjoys specific to rock products. The history of our state is indeed one forged by basic natural resource industries such as mining and our future remains bright. Each policy maker should recognize the important role our collective industry has played and will continue to play in the state’s economy.

The Arizona Rock Products Association plans to have next year’s legislators wearing a lapel pin that recognizes the positive impact they enjoy as a benefit of your hard work. ARPA represents responsible, sophisticated and conscientious member companies that are cognizant of what maintaining our license to operate in the future will mean.

How can I ever thank the Arizona Rock Products Association members enough for allowing me the honor of serving the most impactful and beneficial industry and one I truly love? That said, it begins with our industrious Board of Directors, who have taken the organization to new heights. We are proud to represent you.

It is important to highlight how grateful I am for the amazing leadership of our Chairman, Toby Skinner. I also would like to commend the tireless work of Nicole Massaran, Tammy Franco and the newest member of the team, Brianna Kadlec. I enjoy coming to work each and every day to support the ARPA family. Thank you for all you do for this tremendous organization.

Chairman
Toby Skinner

Executive Director
Steve Trussell
ARPA Turns 60!

The Arizona Rock Products Association was legally formed in August 1947. ARPA turned 60 in 2017 and invited members, legislators, regulatory agencies and friends to join in the celebration as part of a thank you for continued support through the years.

ARPA Welcomes New Staff Member Brianna Kadlec

ARPA is pleased to welcome Brianna Kadlec to the team as the Membership Services Manager. Bri started on February 1, 2018 as the Membership Services Manager. Her primary responsibilities are managing producer and associate membership services, overseeing exploratory meetings with new potential members, assisting in office management, financial matters and event planning.

Bri graduated summa cum laude from Whitworth University and majored in Political Science and Communication. Her most valuable experience was serving as the public policy intern at Greater Spokane Incorporated where she assisted in connecting businesses to relationships and resources, educated members on initiatives to improve the community, and handled communication to the membership.
ARPA Associate Members

EnviroMINE, Inc.

Gallagher & Kennedy

Jackson White

New West Oil Company

Ninio & Moore

Oschmann

Trinity Consultants

Truck Pay, Inc.
On Aug. 30, 2017, The Portland Cement Association (PCA) announced the winners of the 2017 John P. Gleason, Jr., Leadership Awards, honoring individuals who have exhibited leadership in association activities in support of member company objectives and operations. Congratulations to winner Ruben Guerrero, Jr., Director of Corporate Affairs, Salt River Materials Group. Ruben is actively engaged in PCA’s network of public policy and communications committees, including the Government Affairs Council, Industry Communications Committee and State Government Affairs Task Force. He has demonstrated leadership by helping the industry navigate important issues affecting the business of making cement – from legislative and regulatory policy affecting a single plant to managing public perception about the industry as a whole. Ruben has served as ARPA Government Affairs Chair and is the incoming Community Relations Chair and has been ARPA’s Beating of the Drum recipient.

ARPA was contacted by the ARMY Corps of Engineers in need of materials and assistance during the recent Nogales flooding.

“CalPortland was called for help when there was a sewer pipe breach on the Potrero Creek in Nogales due to a flood and an emergency was declared. CalPortland supplied rip rap grout, CLSM, rip rap and recycled concrete material (RCM). It took less than six days to get the repairs done. The CalPortland team in Rio Rico really came through with their call to action and technical support with all the entities involved.” - Dave McElvain, Sr. Sales Representative Southwest

Congratulations to INLAND for winning Dealer of the Year in Successful Dealer Magazine at The Great American Truck show in Dallas, Texas. ARPA also applauds INLAND and Utility Trailer Sales of Arizona for partnering up to fight against human trafficking. A new “Everyday Heroes” Kenworth T680 was auctioned off on June 20, 2017, netting $89,000 toward the cause.
“Arizona, our beautiful state, was built on mining.”

– Former Arizona Governor, Jan Brewer
Legislation Update: Bills and Matters of Note during the 2018 Legislative Session

Through ongoing work including meeting with the Arizona State Mine Inspector’s Office regarding the Aggregate Mining Reclamation Rules, ARPA was able to influence the Rules before they were finalized and sent through the public process. ARPA members Eric Mears, Stuart Kimball and Daniel Kimball worked tirelessly on the matter and most of the major issues were addressed. State Mine Inspector Joe Hart sat in on the meeting and was willing to consider ARPA’s proposed changes.

Other bills of note that ARPA tracked in the House and Senate include:

- H2238 ADMIN DECISIONS; REVIEW; SCOPE
- H2416 APPROPRIATION; STUDY; PRIME CONTRACTING CLASSIFICATION
- H2456 STADIUM DISTRICT; EXTENSION; RIO NUEVO
- H2526 CAREER TECHNICAL EDUCATION DISTRICTS
- S1038 STATE LAND SALES; PAYMENT METHOD
- S1052 COUNTY FLOOD CONTROL DISTRICTS; EASEMENTS
- S1142 PRIVATE LAND ACQUISITION; COMMITTEE; CONTINUATION
- S1144 CONSERVATION EASEMENTS; NOTICE; VALUATION
- S1200 TRANSPORTATION REVISIONS
- S1209 SCRAP METAL DEALERS; DPS REPORT
- S1273 GRRC; REVIEW; LICENSING REQUIREMENTS
- S1409 TPT; PRIME CONTRACTING; ALTERATION; REPLACEMENT
- S1421 ENVIRONMENTAL QUALITY; AMENDMENTS
- S1493 ENVIRONMENTAL QUALITY; DREDGE, FILL PERMITS
- S1494 ENVIRONMENT; UNDERGROUND INJECTION CONTROL PROGRAM
- S1405 CORPORATE INCOME TAX ALLOCATION; SALES

HB2060 - AGGREGATE RECLAMATION VARIANCE BILL

HB2060 was an important bill for ARPA because it relates directly to aggregate mining operations.

H.B. 2060

The inspector, by rule or conditional order, may allow an owner or operator of an exploration operation or aggregate mining unit to vary from any rule adopted pursuant to this chapter or any requirement or condition of a reclamation plan issued pursuant to this chapter if the inspector finds that allowing the variance will not endanger public safety and will not be inconsistent with the objectives of the reclamation plan.
Mining Day at the Capitol

ARPA members joined AMA on March 15, 2018 for another successful Mining Day at the Capitol focused on education, outreach and awareness. More than 1000 attendees enjoyed displays and equipment demonstrations related to mining in Arizona. ARPA appreciates members including CalPortland, Empire, Granite Construction Company, New West Oil and Reuter Equipment Company who participated, displayed equipment and supported this important event.

With more than 1000 attendees, ARPA was able to provide information and activities for participants, answer questions and provide an overall fun and educational experience.
ARPA Political Action Committee Stays Busy This Year

The Arizona Rock Products Association, or ARPA, began in 1956 as an advocate for producers of aggregates, asphaltic concrete, ready mix concrete, asphalt, lime products and the portland cement industry. Membership also includes associate members consisting of related transportation, contractors and consultants. ARPA has become and will continue to be one of the most influential public and private policy advocates in Arizona.

ARPA’s primary goal is to track key environmental, safety, transportation and governmental affairs and educate our members on the potential impact of current issues. Further, it is through intense political involvement at state and local levels that ARPA continues to make its greatest strides.

In addition to being a respected industry advocate, ARPA provides significant benefits to our valued members and the communities in which we live and serve. ARPA will continue to provide the forum for key committees such as; environment, community relations, safety, transportation, concrete and asphalt technical committees and governmental affairs, whose work is the precursor to legislative initiative.

ARPA and its members strive to work productively within the political and regulatory infrastructure in order to continue to improve the lives of others and invest in the future of our communities. It is through personal and voluntary contributions from members that ARPA is able to continue to have a voice in matters related to the industry and the economy.

ARPA is pleased to provide a variety of methods for members to contribute, including prize giveaways, event contributions, etc.

For example: congratulations to Roger Dumont of Southwestern Scale Company for winning the beach basket giveaway from one such PAC donation.
“By working together, we can make Arizona a place where everyone has an opportunity for a better life.”
– Arizona Governor Doug Ducey
ARPA Cares: Donations made to Sahuarita Unified School District – JTED School

The Pima County Joint Technical Education District (JTED) is a public high school district that offers premier, tuition-free career and technical education programs to sophomores, juniors and seniors. They serve students from public, private, and charter schools as well as students who are home-schooled. This facility also serves students who have not earned a diploma or GED and are under the age of 22. They have doubled their attendance from 14 students in 2016 to 28 in 2017 and with the second campus they will enroll even more future rock products industry employees. Two campuses – one in Tucson and the other opening up soon in Sahuarita (just a little south of Tucson) – needed approximately two loads of material for dust control, which were graciously donated by CalPortland and Granite Construction. The equipment operators/students were then to practice moving and loading for their continued development of usable skills. The students are getting important training by operating equipment, learning safety skills like OSHA 10 and getting industry business knowledge which has led to graduates finding jobs in construction-related fields.
ARPA members and staff volunteered to serve food as part of the Grace Lutheran Church’s Heat Respite program in summer 2017, part of the Maricopa County Heat Relief network. The program served more than 10,000 people over 60 days with the help of more than 150 volunteers.

ARPA supports Project Cure in helping to provide medical supplies, medication and toiletries for needy communities internationally. As one of many make-a-difference projects the association has been involved in, staff assembled care packages for those less fortunate on January 11, 2018.

Board member Ryan Jacoby kicked off the ARPA blood drive on February 16, 2018. His donation will give hope to hospital patients in our community, including accident victims, heart surgery patients and those receiving treatment for leukemia and cancer. ARPA members saved 78 lives by their generous donations!
ARPA Hosts Annual Legislative Softball Game

Photos from the Stalkers (lobbyists) vs. Strikers (legislators) legislative softball game on April 19, 2018, a worthy cause that raised $4500 benefitting the House of Refuge (all photos courtesy of Jonathan Williams Photography). The Stalkers fought hard against the Strikers but ultimately were struck out with a final score of 30 to 10.
Poverty’s Pets

Poverty’s Pets, Columbus House in Phoenix, Arizona gets landscaping upgrade for dog rescue!

On October 7, 2017 volunteers spread 45 tons of rock donated by Gila River Sand and Gravel to provide a more suitable yard environment for dogs housed in the Columbus House in Phoenix. Poverty’s Pets is a non-profit organization specializing in the rescue of abandoned, neglected, and abused animals in low-income and underserved communities in Central Phoenix. The Columbus House is a safe and caring refuge until the animals are found a suitable home.

The Columbus House collaborates with local schools to educate and demonstrate proper care of the animals. Teaching the students to engage and interact appropriately is a treat for both the students and animals. The Columbus House also serves as a house of therapy for veterans that take part in the VA Hospital sponsored PTSD program who visit and play with the dogs.

Since their establishment in 2008, over 500 animals have been adopted and vet care has been provided to more than 800 pets.

Special thank you to all the company volunteers who were there at 6am to get the project rolling: Gila River Sand and Gravel, Wood E&I Solutions, Inc., CalPortland, Vulcan Materials Company, Drake, Fisher Industries, Arizona Materials, Rock Solid, Arizona Rock Products, Boy Scout Troop #823, Millennium High School – NHS group and Phoenix Community Toolbank for the tool rental.
ARPA members support the Arizona Audubon Society through various events including sponsoring the Enchanted Trail on October 20 and 21, 2017 and the Birds n’ Beer educational happy hour with special guests sponsored by Vulcan Materials Company on April 19, 2018.
I AM A MINER campaign
The I AM A MINER campaign will raise awareness in the community about what mining really is, dispelling misconceptions about the industry and introducing career possibilities to future generations.

As part of its Community Relations effort to improve public perception of who today’s miners are, ARPA members from more than 12 different producer companies agreed to be photographed by Thurlkill Studios for a promotional campaign including posters, information cards, social media and workforce development opportunities. The photos represent people from a diverse group within the industry including fieldwork, environmental and testing, safety and legal counsel.

“I'm so fortunate to work in a fast growing and extremely important industry. Working in the mining industry as an environmental specialist has been such a rewarding job.” – Sydney Stauffer, Environmental Specialist, Vulcan Materials Company Mountain West Division

“Two good things I can tell you about the mining industry: no two days are the same, and every day is an adventure.” – Shane Bloomfield, Safety Manager, Salt River Materials Group

“Having the opportunity to participate in improving my communities’ infrastructure is a blessing. I could not ask for a better industry to be a part of.” – Grant Fisher, Project Engineer, Fisher Industries

From left to right, first row: Sydney Stauffer, Gary and Angela Slone, Kyle Henderson, Deissy Araiza and Beau Tanner. Second row: Justin Woolsey, Shane Bloomfield, Tyler Novak and Rebecca Kervella. Third row: McKay Tanner, Matt Morago, Joel Palacios, Brandon Town and Grant Fisher.
Kirkland Mining Company executive Areta Zouvas and Al Burch met with the Arizona Geological Survey on August 28, 2017 for its 40th episode of the Arizona Mining Review to discuss the development of a pozzolan mine in central Arizona. Pozzolan is a geologic material – a volcanic tuff or ash – that when admixed with water, lime, sand and gravel makes a superior and long-lived concrete.

On November 29, 2017 Steve Trussell met with Mike Conway of the Arizona Geological Survey for an interview on the Arizona Mining Review e-magazine. Topics discussed included challenges and opportunities of coordinating advocacy for all Arizona mining and the combined $10 billion impact that mining industrial minerals and metals has on Arizona’s economy.

ARPA Associate member Eric Mears of Haley & Aldrich was featured on April 29, 2018 in the Arizona Mining Review #45 to discuss gravel production and consumption in Arizona, specifically addressing aggregate quarrying from the Phoenix area’s Agua Fria River.
Bus Tours and Community Education

Floodway Aggregate Mine Tour

ARPA hosted a bus tour on October 17, 2017 for a tour of three member facilities CalPortland (cement), Granite Construction (asphalt and aggregates), and CEMEX (concrete). Participants included members, agency representatives including PDEQ and the Pima County Department of Transportation Field Engineering, as well as Mayor Honea of Marana and UofA students. 32 participants learned more about the industry in southern Arizona.
Outreach and Workforce Development

STEMinar at Estrella Community College (ECC)

On March 28, 2018, Steve Trussell spoke to students at ECC on the importance of mining in the state of Arizona and showcased job opportunities within the rock products industry.

Arizona Construction Career Days

ARPA members CalPortland, FNF Construction, RDO Equipment, Vulcan Materials Company and Inland Kenworth represented the industry November 2 – 3, 2017 at the Arizona Construction Career Days, an ongoing workforce development event highlighting the many opportunities for students in the construction industry. 2017 was the 15th anniversary of the event, celebrating 2500 students from 11 counties across the state from 93 schools.

Arizona Construction Career Days – VIP Event

Adjutant General McGuire is shown with Rose Anne Canizales and Steve Trussell as part of a VIP event that kicked off the Arizona Construction Career Days on November 2, 2017.
The 2017 convention at Waterfront Hotel in Huntington Beach was another success. The lineup included guest speakers, breakout sessions and plenty of opportunities for education and networking during the week of June 20 – 23, 2017.
Associate Mixers

Top Golf and Spring Training Games

Associate mixers provide a unique opportunity for Associate and Producer members to mix and mingle in a fun, casual environment. The fall mixer was held at Top Golf on November 9, 2017 and was a great success. On February 28, 2018 members networked at a spring training game under the covered Pepsi Patio setting of a spring training game at Salt River Fields.
ARPA hosted its annual holiday luncheon on December 8, 2017 in appreciation of members, legislators and regulatory agencies for another productive, successful year. Special guests included Governor Doug Ducey who spoke to the Board in their monthly meeting and then addressed more than 450 attendees for the luncheon.
Safety Matters!
Driver of the Quarter Winners

ARPA congratulates Ruben Macias with Fisher Industries, winner of ARPA Driver of the 3rd Quarter and Driver of the Year. 37 years with no accidents operating a 70,000-pound vehicle deserves special recognition.

"Ruben goes extra lengths to not only make sure he is performing his job safely, but Ruben goes the extra mile to make sure others around him are performing their tasks safely as well."  - Kyle Wilkes, Fisher Industries.

Driver of the 4th Quarter winner:
Art Molina, CEMEX (not pictured)
Safety Matters

Accident Investigation 101 Fact-Finding Prevention of Recurrence

ARPA offered an in-depth workshop with detailed guidance and skill training on how to fully investigate a workplace accident to all producer members on two days, December 13 and 14, 2017. In addition to covering regulatory requirements and agency interactions, the half-day session focused on useful skills such as proper evidence-collection photography, witness questioning, report writing, fact gathering and basic root cause analysis. The course was led by a team of experienced safety professionals, and attendees left the training with useful guidance materials and investigation tools. This training was a result of a Safety Committee Subcommittee effort and now McCraren Compliance offers this training to producer member companies.

Safety Awards Luncheon

ARPA held its annual Safety Awards Luncheon at the Arizona Grand Resort & Spa on April 6, 2018 to honor producer member companies that have earned safety recognition for the year 2017. Thank you to the Safety Awards Sponsors: Salt River Materials Group, Lafarge, Vulcan Materials Company, CalPortland, Gila River Sand & Gravel, CEMEX, Granite Construction, Core Ready Mix, Drake Materials and Cement, Arizona Materials, Madison Granite Supplies, McCraren Compliance, and Southwest Asphalt for continued dedication and support of this event.

Congratulations to David Carter of CEMEX for winning 2017 Safety Professional of the Year!
The Young Leaders Committee of 2017 chose a make-a-difference project and raised money through a charity softball game on April 21, 2018. 16 teams participated raising $8,239.68 for donation to Sunshine Acres to purchase materials and playground equipment.
Young Leaders – Class of 2018

The Young Leaders Committee took a guided tour of the Arizona State Capitol on Friday, May 18, 2018. Representative Rusty Bowers provided an inside perspective for the committee on topics including how legislators debate a bill and the process that follows.

CLASS OF 2018:

HUGO ACOSTA, AGGREGATE CRUSHER SPECIALISTS
TIMOTHY (AUSTIN) BEELER, VULCAN MATERIALS
SUZANNE BELL, HALEY & ALDRICH
BRAXTON DAY, ROCK SOLID
HOMAR DELGADO, SALT RIVER MATERIALS GROUP
TIM DICAMILLO, CUSTOM LANDSCAPE MATERIALS
PAUL ENGLAND, DRAKE MATERIALS
GRANT FISHER, SOUTHWEST ASPHALT
SELENA HOPKINS, SOUTHWESTERN SCALE COMPANY, INC.
ROBERT KOLSTENY, WOOD E & I SOLUTIONS, INC.
KRISTIN MIRANDA, SOUTHWESTERN SCALE COMPANY, INC.
CRAIG PERRY, REUTER EQUIPMENT COMPANY
JOSH ROBERTS, CEMEX
SYDNEY STAUFFER, VULCAN MATERIALS GROUP
JUSTIN WOOLSEY, CEMEX
“I can always count on the Arizona Rock Products Association and its members to not only provide helpful ideas for improvement but to also participate in finding workable solutions for processes in key state agencies.” – Henry Darwin, Chief of Operations, United States Environmental Protection Agency
Regulatory Roundup

Policy

ARPA is heavily engaged with a variety of policy issues affecting the rock products industry. Of ongoing importance is the Highway User Revenue Fund (HURF) and the potential for getting increased funding from HURF for rural counties. Closely related is ARPA’s continued interest and support of the Arizona Chamber’s Accelerate Arizona initiative. The Arizona Capitol Times met with ARPA to discuss an informative insert focusing on highway funding in January 2018.

Also of note is ARPA’s working relationship with other entities including the Maricopa County Government Affairs team when it comes to legislative planning as well as other associations such as the Arizona Tax Research Association, where ARPA has a seat at the Board and is well placed to share and communicate critical information. The collaborative spirit is present with other associations and organizations, a tribute to the partnerships that ARPA members have fostered over the years.

State and Federal Lands

ARPA met with State Land Commissioner Lisa Atkins to discuss agency process improvements, retiree replacements, ASLD’s sunset hearing at the legislature, the possibility of ASLD hosting a monthly Commissioner’s roundtable and other land management policy issues.

State BLM Director Ray Suazo met with ARPA staff to discuss the Bureau under a new administration and the future of the Resource Advisory Council (RAC), on which ARPA has a seat. The intention is that the Secretary of Interior will reinstate the RAC and it can be the working group it was intended to be.

ARPA continues to have input on the Comprehensive Plan for the federal trail designation and its impact on mining by continued conversations with the Director of the Arizona Trails Association, Matt Nelson. ARPA also submitted comments on the Tonto National Forest’s Preliminary Proposed Land and Resource Management Plan to weigh in and set the tone for upcoming RMP’s with the new administration.

Regulatory

At the state level, ARPA has been involved with a number of issues including support of ADEQ’s assumption of the 404 program from the Army Corp of Engineers, a joint policy with Maricopa County regarding portable source permitting that could have extended to Pima and Pinal Counties, as well as Regional Haze issues to avoid unnecessary controls that have little to no effect on air quality or visibility as the Rule intended.

Locally, ARPA members met with the Maricopa County Air Quality Department to address concerns related to the use of admixtures and potential VOC emissions. The county agreed to approach the association instead of individual members in the future to assure that any questions are addressed immediately and on behalf of the entire association.

Maricopa County Floodplain Use Regulations now include a “life of mine” permitting provision that allows ARPA members to avoid having to renew permits every five years.

Regulatory
ARPA staff members attended several meetings and a public hearing in August 2017 regarding the truck route issue on 107th/Jomax and the area north of Happy Valley Road. The City of Peoria removed Tierra Del Rio (107th) north of Happy Valley Road from the truck route excepting local deliveries.

Based on a meeting ARPA members had with the mayor, city council, staff and local police department and later a separate meeting with residents to discuss the impact their revised truck route would have on members and other trucks that use the road, the issue encompassed safety, speeds and vehicle noise prior to 5:00 AM. Community Relations committee staff attended initial meetings to voice concern on how the ordinance was adopted so quickly and to learn what can be done in the future if the issue comes up again in any community where ARPA members are conducting business.

The revised map and updated truck route were provided by the City of Peoria’s Traffic Engineering Division as a solution.
MSHA Spring Thaw

MSHA’s annual Spring Thaw kicked off Friday, May 11, 2018 at the Embassy Suites in Scottsdale, Arizona where approximately 300 attendees were on hand showing a commitment to safety. In addition to assistance from AMA and ARPA platinum sponsors and the following ARPA members: CalPortland, Fisher Industries, Freeport-McMoRan, Gila River Sand & Gravel Company, Lafarge, McCraren Compliance, Salt River Materials Group and Vulcan Materials.
