

ARPA Producer of the Year Award 2022

This recognition is given to a standout producing member company that participates on all fronts and also supports the Association's mission. Every year we honor one company for outstanding contributions to the organization. This year, **Vulcan Materials Company** was selected due to the support and leadership of the following individuals starting with our Chairman & Incoming Executive Board Member Jeff May and support of Brad Parker, Mark Reardon, Deb Hutchison, Cynthia Salas, Greg McClendon, Tim Beeler, David Herd, Michelle Dawson, Lane Klastow and that's not all. The list of Future Leaders this year alone is 7 people deep. (Joe, Marcos, Gloria, Cynthia, Michelle, Paul, & Ben). This list is an indicator of just how involved this company is in the association.

Vulcan is represented on about every one of ARPA's 13 committees, they assist with the industry internally with our technical work and externally with the Maricopa Association of Governments and various municipalities, county, state and Federal agencies. They support events which include our fundraising activities, support of our charitable contributions such as Community Housing Partnership where they had a competition and brought out a very large team to volunteer. Vulcan's staff members are involved in community relations efforts and in performing a multitude of projects.
