

FUTURE LEADERS

HELPING TO PREPARE YOUR INDUSTRY FOR THE FUTURE!

Do you know someone from your organization or who should be recognized for their leadership ability? Please submit your nominees for the class of 2019 Future Leaders Program to tammy@azrockproducts.org by Friday, January 25, 2019.

The ARPA Future Leaders Program will focus on the development and training of future leaders of the rock products industry in Arizona. Many producer members, managers and executives recognize the need for a robust next generation leaders group to sustain the industry long term. With the average age of the rock products worker hovering at approximately 50+ years, it is clear the rock products industry needs to prepare our future leaders now! Developing this decision making group can help bridge the leadership gap and bring new energy and ideas that can be helpful in an ever changing industry and Association.

WHO : Dynamic Industry Leaders

WHAT : A commitment to better understanding your industry, your Association and how you can help. Luncheons will take place each month in 2019 and nominee will have the opportunity to network and interact with various industry, policy and elected leaders.

WHERE : Arizona Rock Products Association Office

WHEN : Plan to attend ten dynamic 2-hour lunch meetings that will take place the last Friday of each month.

WHY : To prepare YOUR industry for the FUTURE!
