Certificate of Conformance for Concrete Production Facilities

It is hereby certified that

Arizona Materials, Plant #21 633 E. Brannen Avenue, Flagstaff, AZ

has been inspected by the undersigned registered professional engineer for conformance with requirements of the "Check List for Ready Mixed Concrete Production Facilities." As of the inspection date, the facilities met requirements as stated below.

Operation: Truck Mixing

Batching System: Fully Automated

Recording: Cementitious, Aggregate, Water, Admixture

Executive Director

Arizona Rock Products Association

<u>09/29/2022</u> Date signed by ARPA Executive Director

09/09/2022

Inspection Date

09/09/2024

Expiration Date

This Company will maintain these facilities in compliance with the Check List requirements and will correct promptly any deficiencies which develop.

Notice: The check list indicates only that plant facilities are satisfactory for the production of concrete when properly operated. Conformance of the concrete itself with specification requirements must be verified by usual inspection methods in accordance with sales agreement.

11. CONCRETE BATCH PLANT INSPECTION REPORT Ready Mix Supplier: Arizona Materials Date: September 9, 2022 Project Name: 2022 ARPA Plant Certification 21 Plant number: 633 E. Brannen Ave - Flagstaff, AZ Project Number: 221920ZA Plant Location: Lab Number: 675798 Donald L. Cornelison Inspector: Directions for the inspector: Place an "x" in the applicable box. NOT NOT APPLICABLE ACCEPTABLE ACCEPTABLE **MATERIALS/INGREDIENTS** 1. Aggregates Aggregates transported, separated, stored, stockpiled, and fed to plant correctly (Note 1). Aggregates meet applicable quality requirements (Note 1). Cementitious Materials 2. Silos are watertight without excessive leakage. Separate storage for cement and flyash. 3. Admixtures/Additives Admixtures protected to prevent damage from contamination and separation. Admixtures protected from freezing. Water 4. Adequate supply and pressure. Adequate heating and/or chilling capacity (Note 2). **BATCHING PLANT** 5. Scales, Plant Bins, and Weigh Batchers Digital-indicating Beam-indicating Dial-indicating Scale display(s) visible to batchman at normal station. Scales/batchers accurate within applicable tolerances (Note 3). Scales calibrated within last 6 months. d. Separate bins for fine aggregate and each applicable size of coarse aggregate. Separate scale and weigh hopper for cementitious materials. All weigh hoppers freely suspended from scale and charge and discharge properly. Free moisture in aggregates taken into consideration when determining batch weights. h. Water Meter, Water Batcher, or Volumetric Measuring Tank Device for measurement of added water capable of delivering required quantity within applicable tolerances

and capable of dispensing in increments as small as one gallon (10lbs. if weighed).

Volumetric measuring tank equipped with a means to check calibration.

7.	Admixture Dispensers			
a.	Separate dispenser for each admixture.		\vdash	H
b.	Piping free of leaks and properly valved.			
c.	Dispensers calibrated within last 6 months.	~		
d.	Visual or gross check for batchman independent of operation of primary metering of	device.		
8.	Batching System *See definitions below.			
a.	Batch System Type: Manual Semi -Automated Fully Automated		9	
9.	Recording System (recording device which provides a perman	ent record of b	atch quantities	for each
	batch of concrete produced.)			
a.	Recorders: Cementitious Aggregate Water Admixtures			
	Recorders shall:			
b.	Be properly protected.			
c.	Provide for identifying the particular batch with the corresponding delivery ticket.			
d.	Register quantity of ingredients batched.

12. Verification of Inspection and Application for Certification (CONTINUED)

The undersigned, a registered professional engineer in Arizona							
	(state, territory, or jurisdiction)						
has conducted the inspection of the ready-mixed concrete plant described as							
Plant 21, 633 E. Brannen Avenue - Flagstaff, Arizona							
(please print specific designation and location of plant)							
and asserts, in his professional judgment, the information provided on this Check List is accurate and complete. Application is hereby made for the issuance of a certificate for this plant, to be classified as follows:							
General Operati	on <u>Batching System</u>	Recording (if any)					
✓ Truck Mixin	g Manual	Cementitious					
Central Mix	ing Semi-Automated	✓ Aggregate					
Both	Fully Automated	Water					
	. [✓ Admixtures					
A Certificate of Conformance cannot be issued if any of the not acceptable boxes from CONCRETE BATCH PLANT INSPECTION REPORT (pg 12,& 13) are marked with an "X".
