

ARPA Associate Member Of The Year Award 2015 - 16

REUTER equipment co.

Reuter Equipment Company has a team of skilled representatives, with a combined experience of over fifty years, readily available to answer your questions, determine your specific needs, and find the aggregate & mining equipment that will satisfy your particular operations.

We have the expertise to assist you with the designing of new crushing spreads and modernizing existing crushing operations while keeping increased productivity at a minimal cost in mind for our customers.

Reuter Equipment provides a large integrated line of quality replacement and wear parts for all of your crushing, screening, washing and conveying equipment.

Reuter Equipment Company has a fleet of well equipped service vehicles with trained field technicians who are capable of pin pointing problems and making adjustments/repairs at the job site. We also maintain a fully equipped shop for your major equipment repairs.

Reuter Fabrication is an on-site facility providing custom metal fabrication services. We have sixty years experience in the metal fabrication industry, with qualified personnel to quote, bid and build your specific job.
